

I am writing regarding LPFM and its impact on the only radio station I listen to regularly, K-LOVE.

1. I listen to K-LOVE daily, usually for several hours a day. It is food to my soul and there are days I could not "survive" without its positive message.
2. I have many friends who also listen to K-LOVE and we would all be greatly impacted if it were no longer available. Sadly, more trash radio would probably replace it.
3. There is no guaranty that high quality Christian programming would replace K-LOVE if it were displaced. That would be a tragedy!
4. I feel that the value K-LOVE adds to the community is not quantifiable. Beyond the music, bible verses, inspirational segments and news blurbs that are hear on the airwaves, they also have behind the scenes pastors you can call and talk to. They pray for their listeners daily and they are constantly providing laughter, hope and encouragement.
5. I know there are other local Christian radio stations and I do occasionally listen to them. However, my favorite is K-LOVE. I listen to it here, when I travel to visit family in KS and CA. I have also recommended it to friends out of state and enjoy knowing that we are listening to the same awesome music and getting the same positive message. You can't do that with just a local station!!

Thank you for your time.

Sincerely,
Nicole Blake
